### INTRODUCTION TO THE IMS

Kenaidan is committed to safety, environmental protection, quality assurance/control, customer satisfaction, and continuous improvement. We believe this commitment will provide long-term benefits to our valued clients, suppliers and employees. To ensure this, Kenaidan has developed a comprehensive Integrated Management System (IMS).

Our IMS consists of a series of manuals incorporating policies and procedures which focus on every facet of our business. We have grouped our business functions into Core (C), Management (M), and Support (S) processes. An integral part of our IMS is a process of continuous improvement where we constantly analyze and review our policies and procedures to capture improvements and ensure they are included in the IMS. Kenaidan's IMS will help ensure that our performance, as a construction services provider, exceeds our customer's expectations.

### ISO REGISTERED

Kenaidan's IMS has been measured against the ultimate benchmarks of quality – ISO 9001 for Quality, 18001 for Health and Safety, and 14001 for Environmental. On December 20, 2000 Kenaidan achieved ISO 9001 registration; on March 27, 2008 we were registered for OHSAS 18001, and on October 22, 2009 we were registered for ISO 14001. Kenaidan is among one of the few North American construction companies to reach this plateau.

### THE IMS MISSION STATEMENT

- To provide responsible, quality construction services utilizing superior innovation and expertise.
- To develop and maintain long-term relationships with satisfied clients and suppliers.
- To create a safe, challenging and enjoyable work environment where employees share in corporate growth and success.
- To build on a sound financial base where future development is promoted over short-term gain.
